

JACKET

JK210

PRODUCT DESCRIPTION

The JK210 Two-Tone Jacket offers premium Arc Flash and flame protection with a high Arc Protection Class 2 rating and Class 2 high-visibility certification. Built from an assembly of two ProGARM VXS+ fabrics, it combines a durable ripstop outer with a plain weave lining for comfort and strength.

Ergonomic shaping, an action back, and adjustable cuffs support mobility, while multiple secure pockets, reinforced sleeves, and reflective tape add safety and practicality. Designed for demanding industrial environments, it delivers protection, visibility, and durability in equal measure.

MEASURING GUIDE

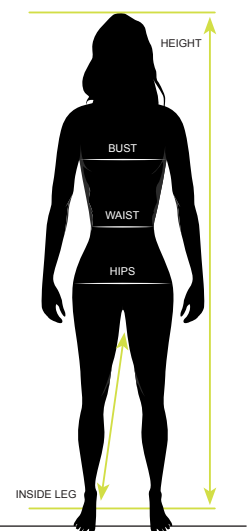

Measurements must be taken wearing clothing usually worn underneath waterproof outerwear. The tape measure should be fairly loose and not pulled too tight:

- ✓ **BUST** - measure under the arms at the fullest part around the bust horizontally with arms by your side.
- ✓ **WAIST** - measure around the natural waistline at the fullest part.
- ✓ **HEIGHT** - with bare feet together measure from the top of the head to the floor.

Compare your measurements with the size charts in the fit guide to determine the right jacket for you.

**These styles are historically perceived as FEMALE but can be worn by any person who's body measurements fit into the above tables.*

***Please note when using the measurement tables that all manufacturing tolerances and standard garment over-measures have been taken into account. This ensures any slight variances in manufacture or fabric shrinkage after washing will not affect the fit of the garments.*
